SUBJECT INDEX

Absorption, of chrome by *Penicillium lapidosum* 147
Acrylic acid, polymers containing, for finishes 37
Acrylic polymers
for finishes 39, 80
finishes, containing pigments or delustering agents 80
finishes, rheology control in 381
finishing with, of leather and leather substitutes 40
graft, on keratins, for impregnation and finishing of leather 211
graft, with casein for binders in finishes 342
tanning with 78
waterproofing with hydrocarbons and waxes and 82
Acrylonitrile
graft copolymers with mica as fillers and tanning materials 346
polymers with butyl acrylate, finishes, particle size effect on properties of 375
Activated charcoal, protein adsorption on 378
Adhesion, of leather by adhesives, mechanism of 372
Adhesives
leather bonding by, mechanism of 372
nitrile rubber, resin-modified, for footwear and leather goods 373
Adipic acid, complexes with caprylic acid and gelatin, for detergents 118
ADMINIS, UDO, Biography 72
Adsorption, of proteins on activated charcoal 378
Aging
collagen metabolism in, protein malnutrition effect on 378
of hides in prolonged storage 344
Alanine, complexes with chrome, tanning with amides or glutaraldehyde and, exhaustion in 375
ALCA
Alsop Award to Marcel Siegler 274
Audit Report 185
Auditing Committee Report 231
Budget for 1986 141
Business Meeting Minutes 267
Call for Papers for 1987 Annual Meeting 369, 395
Candidates for the 1986 Election 73
Circulation Breakdown 317

Council Meeting Minutes 139, 339
Directory Changes 143, 314
Education Committee Report 267
Effluent Committee Report 267
Fred O'Flaherty Service Award to Herbert A. Tetreault 273
John Arthur Wilson Memorial Lecture Announcement 138
Methods Committee Report 267
New Uses of Collagen Committee Report 268
President's Opening Remarks at 1986 Annual Meeting 265
Program for 1986 Annual Meeting 174
Rawstock Committee Report 268
Research Liaison Committee Report 269
Specification Review Committee Report 270
Status of the Association 316
Aldehydes, polymers with amino compounds and tannins, for flocculants 280
Aldrin, determination of, in tannery sludges by gas chromatography 343
ALEXANDER, K. T. W. Biography 111
Aliphatic compounds, leather waterproofing by 210
Alkaline phosphatase activity, in bones of chick embryos, chromium toxicity effect on . 212
Aloe vera, juice, sun screens containing, for human skin 76
Alum
oil-in-water emulsions containing borax and, for tanning 40
tanning with formaldehyde and, of cricketball leather 379
Aluminum salts
in pretanning of wet-white hides 343
tanning materials from titanium and zirconium salts and 40
tanning with formaldehyde and syntans and, for upholstery leather 374
tanning with, glutaraldehyde and phenolic resins in 114
tanning with polysilicic acid and 343
tanning with, for wet-white hides 210
Amines
degreasing with, of furs or hides 284
determination of, in unhairing-liming wastewater 344
Amino acids, complexes with chrome, tanning with amides or glutaraldehyde and, exhaustion in 375
Amino compounds, polymers with aldehydes and tannins, for flocculants 280
Aminobutyric acid, complexes with chrome, tanning with amides or glutaraldehyde and, exhaustion in 375
Aminohexanoic acid, complexes with chrome, tanning with amides or glutaraldehyde and, exhaustion in 375
Ammonia, removal of, from deliming wastewater by stripping-reabsorption 125
Ammonium titanyl sulfate, tanning with 278
Antiperspirants, grip enhancement of leather coverings with surfactants and 284
ARAI, KATSUHIKO, Biography 338
ARTYMYSHYM, BOHDAN, Biography 35
ASTM, Report of Committe D-31 on Leather 209
Automobiles, upholstery leather for, from pigskins 376
Auxiliaries, in leather industry, review on 146

Bacillus subtilis, proteinases of, degradation by, of tanned hide powder 344
Bacillus thermoproteolytics Rokko, proteinase of, degradation by, of tanned hide powder 344
Bacteria
halophilic, growth of, in seasonal cycles 248
hide degradation by, determination of, trypsination in 380
Bactericides, for hide curing, Proxel GXL as 293
Banana oil, sun screens containing, for human skin 76
Bating, unhairing effect on 344
Beamhouse
changes during 1955-1985 147
corrosion in 370
differential scanning calorimetry of collagen denaturation in relation to 213
dry drumming in 146
ecologically sound practices in 371
process, leather quality in relation to 375
proteoglycan removal from hides in, opening-up in relation to 85
wet process, process variation effect on hides and effluents 19
wet process, sampling and analysis of hides and liquors, precision of 4
Biodegradability, of synthetic tanning materials 344
Biofungicides, organochlorinated, determination of, in tannery sludges by gas chromatography 343
Biogas, from tannery sludges, energy recovery from 145
Biotechnology, handbook of, book review on 312
Bleaching, of collagen with chlorine dioxide 62
Bones
of chick embryos, alkaline phosphatase activity in, chromium toxicity effect on ... 212
chromium effect on 345
of embryos, chromium toxicity to, X-ray diffraction study of 370
Book Review, Novo's Handbook of Practical Biotechnology 312
Borax, oil-in-water emulsions containing alum and, for tanning 40
Breeds, of cattle in Japan 344
BUECHLER, PETER R., Obituary 36
Butyl acrylate
polymers with acrylonitrile, finishes, particle size effect on properties of 375
polymers containing, for finishes 37
Butyl carbitol, in hides preservation 76
Butyl methacrylate, polymers containing, for finishes 37

Cadmium oxinate, hide preservation with 211
Calfskin, collagen fiber orientation in, mechanical properties in relation to 221
Calorimetry, differential scanning, of collagen in denaturation, effect of beamhouse and tanning on 213
Canaigre, roots, simultaneous extraction of starches and tannins from 389
CANTUA, S., Biography 394
Caprylic acid, complexes with adipic acid and gelatin, for detergents 118
Carboxy vinyl resins, sun screens containing, for human skin 76
Casein, graft copolymers with acrylic monomers for binders in finishes 342

Cashew, testa, retanning liquors from 212
Cattle, breeds of, in Japan 344
Cellulose, fillers, leather substitutes from ethylene copolymers and 76
Cellulose acetate phthalate, coatings, aqueous 396
Chain length, of polyphosphates in pretanning, shrinkage temperature and tannin penetration in relation to 197
Chamfering, apparatus for, for leather and leather substitutes 77
Chamois, leather, analysis and evaluation of 376
Chemical industry, in pollution prevention in leather industry 145
Chick pea, germination and metabolism of, chrome leather waste hydrolyzate effect on 375
Chicks, embryos, alkaline phosphatase activity in bones of, chromium toxicity effect on 212
Chlorine dioxide, bleaching by, of collagen 62
p-Chloro-*m*-cresol, preservatives containing, for leather, biodegradable 211
Cholesteryl chloride, liquid crystal blends containing, coatings, on leather or textiles .. 79
Cholesteryl nonanoate, liquid crystal blends containing, coatings, on leather or textiles 79
CHONAN, YASUMASA, Biography 338
Chromatography
of naphthalene-formaldehyde condensate syntans 372
thin-layer, of fatliquors 117
Chrome
absorption of, by *Penicillium lapidosum* 147
complexes with amino acids, tanning with amides or glutaraldehyde and, exhaustion in 375
complexes with oleic acid, solubility of 370
reaction products with phenolic resins, for tanning 372
recovery of, from waste chrome leather 78
recovery of, from wastewater at Thru-Blu 305
Chrome tanning
with amino acid chrome complexes and amides or glutaraldehyde, exhaustion in .. 375
corrosion in 370
heating of liquors in 145
with high degree of exhaustion 114
in nineteenth century, review on 371
recycling of spent liquors in 118
uptake in, pickling effect on 373
Chromium
distribution and deposition of, in bones 345
toxicity of, to chick embryos, alkaline phosphatase activity in bones in relation to 212
toxicity of, to embryonic bones, X-ray diffraction study of 370
trivalent, sludges and wastes containing, pyrolytic management process for 322
Chromium salts, recovery of, from tanning wastewater 276
Chromium sulfate, basic, tanning materials from quinone compounds and mercaptoacetic acid and 37
Cleistanthus collinus, phenols and tannins in wood and bark of 212

Coating materials
cellulose acetate phthalate, aqueous ... 396
liquid crystal blends, for leather or textiles ... 79
polyurethane aqueous dispersions, non-polluting ... 346
Cold storage
curing by ... 377
hide preservation by ... 210
Collagen
bleaching of, with chlorine dioxide ... 62
denaturation of, differential scanning calorimetry of, effect of beamhouse and tanning on ... 213
fibers, orientation of, in calfskin, mechanical properties in relation to ... 221
gels, extrudable, for sausage casings ... 81
intramuscular, in fish, hydration and thermodynamic activation of ... 342
metabolism of, in aging, protein malnutrition effect on ... 378
microcrystalline, medical grade, purity evaluation of, by x-ray diffraction ... 342
solutions, micelle formation on ... 379
Collagenases, protein deficiency effect on, lysosomal stability in relation to ... 346
COLLINS, F. LESLIE, Biography ... 72
Color
measurement of, review on ... 116
of wet-blue hides ... 343
Conveyors, for hides and leathers ... 282
COOPER, DESMOND R., Biography ... 137
Copper salts, complex formation with azo dyes, lightfastness improvement by ... 371
Copper sulfate, complex formation with azo dyes, lightfastness improvement by ... 371
Corrosion, in tanneries ... 370
CRANSTON, ROBIN W., Biography ... 368
Crepe, finishes, dye migration into, dyeing auxiliaries and fatliquoring and retanning effect on ... 377
CRONIN, WILLIAM E., JR., Obituary ... 37
Crosslinking, in chrome leather ... 146
Curing
bactericides for, Proxel GXL as ... 293
by cold storage ... 377
control of halophilic bacteria in brines for ... 248
grain damage before and during ... 115
Cutch
dyeing of leather with metal salts and ... 343
in retanning of glazed kid leather ... 232
Cutting, bending, of leather and leather substitutes ... 282

DAS, B. M., Bibliography of his publications ... 396
DAS, B. M., Biography ... 396
DAVIS, MARGARET H., Biography ... 368
DDT, determination of, in tannergy sludges by gas chromatography ... 343
Degradation
anaerobic, of fleshings and tannery sludge ... 115

of tanned hide powder by proteinases 344
Degreasing, of furs or hides with amines 284
Deliming, wastewater from, ammonia removal from, by stripping-reabsorption 125
Denaturation, of collagen, differential scanning calorimetry of, effect of beamhouse and tanning on 213
Dermatan sulfate, removal of, from hides in beamhouse, opening-up in relation to 85
Detergents, manufacture of, from gelatins from hide wastes 118
Dieldrin, determination of, in tannery sludges by gas chromatography 343
Dog treats, collagen, bleaching of, with chlorine dioxide 62
Drape meters, for leather 346
Drumming, dry, in beamhouse and tanning 146
Drums, for dyeing, continuously operating 81
Drying
of leather, apparatus for 41
of leather, systems for 145
of sheepskins, heat damage in 146
press for, for hides 79
Dyeing
auxiliaries, dye migration into finishes in relation to 377
drums for, continously operating 81
dye interaction with leather in 118
of fur- or wool-bearing suede leather 278
of furs or leather with chrome complex dyes 80
of furs or leather with cobalt complex dyes 82
of leather, dye build-up in 147
of leather, review on 113
with Levaderm liquid dyes 114
with metal salts and tannins 343
optimization of 380
of sheepskin suede garment leathers, retanning effect on 379
Dyes
azo, complex formation with copper salts, lightfastness improvement by 371
build-up of, in leather dyeing 147
chrome complexes, for furs or leather 80
cobalt complexes, for furs or leather 82
health hazards of organic, review on 116
migration of, into finishes, dyeing auxiliaries and fatliquoring and retanning effect on 377
Dynavac, machine for stretching leather 321

Ecology, leather manufacture effect on 234
Effluents. *See* Wastewater
Embryos
bones of, chromium toxicity to, X-ray diffraction study of 370
of chicks, alkaline phosphatase activity in bones of, chromium toxicity effect on ... 212
Emulsions, oil-in-water, containing alum and borax, for tanning 40
Energy
consumption of, in leather manufacture 148

recovery of, from tannery sludges by biogas formation 145
Enzymes, in fur pretreatment 376
Ethyl acrylate, polymers containing, for finishes 37
Ethylene copolymers, leather substitutes from cellulose fillers and 76

Fatliquoring
dye migration into finishes in relation to 377
with lecithin-based vegetable oils and phosphorus esters of fatty alcohols 148
with lecithin salts 42
silicones in, waterproofing by 345
Fatliquors, thin-layer chromatography of 117
Fatty alcohols, phosphorus esters, in fatliquoring 148
FEIKES, LIESELOTTE, Biography 234
Fellowships, Yelavarthy Nayudamma Memorial 208
Fermentation, anaerobic, in a multistage reactor 145
Fillers, for leather, acrylonitrile-mica graft copolymers as 346
Finishes
acrylic polymers for 39, 80
acrylic polymers containing pigments or delustering agents for 80
acrylonitrile-butyl acrylate copolymers, particle size effect on properties of 375
application of, control of rheology for improved 381
binders for, acrylic-casein graft copolymers for 342
dye migration into, dyeing auxiliaries and fatliquoring and retanning effect on ... 377
fluorochemical-containing, for waterproofing 84
polyurethanes, photodegradation of 345
polyurethanes, water-based 191
Finishing
with acrylic polymers 40
of E.I. leathers for wider application 396
of flesh side of woolskins 371
with fluorocarbons 279
optimization of 380
solvent, nonpolluting, review on 372
Fish
intramuscular collagen in, hydration and thermodynamic activation of 342
wastewater toxicity to 377
Flaying, of pigskins, with scalding and singeing 281
Fleshing, before liming, leather quality in relation to 375
Fleshings, anaerobic degradation of 115
Flocculants, aldehyde-amino compound-tannin copolymers 280
FLORES RUIZ, J. E., Biography 394
Fluorocarbons, in leather finishing 279
Fluorochemicals, finishes containing, for waterproofing 84
Footwear, adhesives for, resin-modified nitrile rubber as 373
Formaldehyde
condensates with naphthalene, syntans, chromatography of 372
tanning with alum and, of cricketball leather 379
tanning with aluminum salts and syntans and, for upholstery leather 374

FOWLER, WILLIAM M., Biography 368
FRIEDMAN, K. P., Biography 311
Furs
enzymes in pretreatment of 376
staining of microtome slices of 146
woolskins, finishing of flesh side of 371

Gallic acid, decomposition of, by *Penicillium chrysogenum* 373
Gas chromatography, in determination of organochlorinated biofungicides in tannery sludges 343
GEHLHAUS, PAUL H., Biography 394
Gelatin, complexes with adipic and caprylic acids, for detergents 118
Germination, of chick peas, chrome leather waste hydrolyzate effect on 375
GEORGE, JOHN E., Biography 311
Glutaraldehyde
in tanning with aluminum salts 114
tanning with amino acid chrome complexes and, exhaustion in 375
GOOD, CARL F., Obituary 112
Graft polymerization, of acrylic monomers on keratins, for impregnation and finishing of leather 211
Grip enhancement, of leather coverings with compositions containing antiperspirants and surfactants 284
GUTIERREZ, C., Biography 394

Hair, biosynthesis of 118
Health hazards, of organic dyes, review on 116
Heat, sheepskin damage by, in drying 146
Heating, of chrome tanning liquors 145
Hexachlorobenzene, determination of, in tannery sludges by gas chromatography 343
Hexachlorocyclohexane, determination of, in tannery sludges by gas chromatography. 343
Hide defects, information collection on 210
Hide powder, tanned, degradation of, by proteinases 344
Hides
aging of, in prolonged storage 344
conveyors for 282
grain damage to, before and during curing 115
preservation of, by cold storage 210
preservation of, with butyl carbitol 76
preservation of, with metal oxinates 211
procurement of, major trends in 289
quality survey on white spots 286
rawstock, symposium on 285
trypsination of, in determination of bacterial degradation 380
wet-blue, color of 343
wet-blue, manufacture of, standard process for 43
wet-blue, process variation effect on 19
wet-blue, sampling and analysis of, precision of 4
wet-white, pretanning of, with aluminum salts 343

wet-white, tanning of, with aluminum salts 210
Histology, of skin of ray fish (Myliobatis) 232
HURLOW, ELTON L. Biography 208
Hydration, of intramuscular collagen in fish 342
Hydrocarbons
fluorinated, leather waterproofing by 210
waterproofing with acrylic polymers and waxes and 82
Hydrolases, protein deficiency effect on, lysosomal stability in relation to 346
Hydrolysis
of chrome shavings by *Pseudomonas aeruginosa* 378
of polyphosphates for Liritan process, temperature and pH effects on 356
Hydroxyethyl acrylate, polymers containing, for finishes 37
Hydroxyethyl methacrylate, polymers containing, for finishes 37

IULTCS, Announcement of Nineteenth Congress Of 74,338

KALLENBERGER, WALDO E., Biography 264
KALTENBACHER, JOSEPH C., Obituary 341
Karada, phenols and tannins in wood and bark of 212
Keratin,
acrylic-grafted, for impregnation and finishing of leather 211
of cattle and pig hair, solubilization of, by reduction with sodium thioglycolate or oxidation with performic acid 331
epidermis, biosynthesis of 118
KRUGER, I. HEINE, Biography 368

Lactic acid bacteria, unhairing with 374
Lactobacillus plantarum
unhairing with 374
unhairing with, proteolysis in 374
Leather
adhesives for, resin-modified nitrile rubber as 373
bending cutting of 282
biostatic, having fixed non-soluble basic metal complexes 78
bonding of, by adhesives, mechanism of 372
chamfering of, apparatus for 77
chamois, analysis and evaluation of 376
chrome, crosslinking in 146
chrome retanned upper, shape retention of, temperature effect on 374
chrome shavings, hydrolysis of, by *Pseudomonas aeruginosa* 378
chrome split, wastes, writing slates from 211
chrome, wastes, hydrolyzates of, chick pea germination and metabolism in relation to 375
chrome, wastes, recovery of chrome and proteins from 78
color stability of dyed 115
combing apron, manufacture of 378
conveyors for 282
coverings, grip enhancement of, with compositions containing antiperspirants and

surfactants 284
defects, information collection on 210
defects, marking of, with fluorescent pigments 280
drape of, determination of, meter for 346
fibers, composite materials containing 284
fibers, leather substitutes from rubber and 37
fibers, leather substitutes from textiles and 83
manufacture of, ecology in relation to 234
manufacture of, energy consumption in 148
microencapsulated liquid crystal-coated 79
processing of, machines for, symposium on 319
quality of, beamhouse process effect on 375
sheepskin suede garment, physical properties of, retanning effect on 379
shrunken grain, from wool sheepskins 342
softy chrome upper, manufacture of, rural process for 379
sole, manufacture of, LIRITAN process for 119
surface of, measurement of 118
upholstery, pigskin, for automobiles 376
upper, soft, stretch properties of 148
white, manuf. of, from wet-blue stock 103
white, yellowing of 344
Leather industry
auxiliary chemicals in, review on 146
pollution prevention in, chemical industry in relation to 145
Leather substitute
artifical grain, having fiber bundles and color spot groups differing in hue and lightness between adjacent fiber bundles 83
bending cutting of 282
from cellulose fillers and ethylene copolymers 76
chamfering of, apparatus for 77
hue and lightness between adjacent fiber bundles 83
from leather fibers and rubber 37
from leather fibers and textiles 83
plastic-textile-poly (vinyl chloride) foam laminates 40
from porous polyurethanes and textiles, moisture-permeable 42
Lecithin salts, fatliquoring with 42
LEON PAZ, G. E., Biography 394
Levaderm, liquid dyes, dyeing with 114
Lightfastness, of leather, improvement of, by complex formation of azo dyes with copper salts 371
Liming, wastewater from, amine determination in 344
Liquid crystals, microencapsulated, coatings, on leather or textiles 79
LIRITAN, process, hydrolysis of polyphosphates for, temperature and pH effects on .. 356
for sole leather manufacture 119
LOLLAR, ROBERT M. Biography 263
Loranthus longiflorus desr, bark, tannins in 345
LYON, MICHAEL R., Biography 311
Lysosomal stability, protein deficiency effect on 346

Machines, for leather processing, symposium on 319
Malnutrition
of proteins, collagen metabolism in aging in relation to 378
protein, medical properties and thermal behavior of rat skins and tandons in relation to 212
Mange, psoroptic, white spots on leather in relation to 296
MATSUNAGA, AYAKO, Biography 338
Membranes, in recycling of tanning wastewaters 118
Mercaptoacetic acid, tanning materials from basic chromium sulfate and quinone compounds and 37
Metabolism
of chick peas, chrome leather waste hydrolyzate effect on 375
of collagen in aging, protein malnutrition effect on 378
Metal oxinates, hide preservation with 211
Metal salts, dyeing of leather with tannins and 343
Metals, basic complexes, leather having fixed, biostatic 78
Methacrylic acid
copolymers with alkyl acrylates, tanning with 78
polymers containing, for finishes 37
Methane, from anaerobic digestion of tannery wastewater 379
Methyl acrylate, polymers containing, for finishes 37
Methyl methacrylate, polymers containing, for finishes 37
Methylenebisacrylamide, tanning with amino acid chrome complexes and, exhaustion in 375
Mica, graft copolymers with polyacrylonitrile as fillers and tanning materials 346
Micelles, formation of, on collagen solutions 379
Molecular weight, of tannase from *Penicillium chrysogenum* 379
Morphology, of chrome retanned upper leather, temperature effect on 374
Musical instruments, collagen strings for, bleaching of, with chlorine dioxide 62
Myliobatis, skin of, histology of 232

Naphthalene, condensates with formaldehyde, syntans, chromatography of 372
Nappalan process, for finishing of flesh side of woolskins 371
NAYUDAMMA, YELAVARTHY, Memorial Fellowship honoring 208
Nitrogen compounds, organic, in leather oil- and waterproofing 277
Notes for contributors 1

Obituary
Buechler, Peter R. 36
Cronin, William E., Jr. 37
Good, Carl F. 112
Kaltenbacher, Joseph C. 341
Parson, Spencer L., Jr. 75
Rabinovitz, Isidor 341
Schubert, Adolf 313

Odors
from tannery wastewaters and sludges 145
from tanning and wastewater treatment in Naples area 146
Oilproofing, of leather with organic nitrogen compounds 277
Oils
emulsions in water, containing alum and borax, for tanning 40
vegetable, lecithin-based, in fatliquoring 148
Oleic acid, complexes with chrome, solubility of 370
Oleyl cholesteryl carbonate, liquid crystal blends containing, coatings, on leather or textiles 79
Oxidation
biological, pilot plant for 145
of keratin with performic acid for solubilization 331
of surfactants and tannins in tannery wastewater 370

Papain, degradation by, of tanned hide powder 344
PARSON, SPENCER L., JR., Obituary 75
Particle size, of polymers in finishes, properties in relation to 375
Penicillium, chrome absorption by 147
Penicillium chrysogenum
decomposition of gallic and tannic acids by 373
tannase from, molecular weight of 379
Pepsin, degradation by, of tanned hide powder 344
Peptides, from hide trimmings, by transamidification of proteins 211
Performic acid, oxidation by, of keratin for solubilization 331
Phenolic resins
composites with leather powder for sound insulators 283
reaction products with chrome, for tanning 372
in tanning with aluminum salts 114
Phenols, in bark and wood of *Cleistanthus collinus* (Karada) 212
o-Phenylphenol, preservatives containing, for leather, biodegradable 211
PHILLIPS, JOHN G., Biography 35
Photodegradation, of polyurethane finishes 345
Pickling
chrome uptake in relation to 373
short, leather quality in relation to 375
Pigments, fluorescent, leather defect marking with 280
Pigskin
flaying of, with scalding and singeing 281
upholstery leather, for automobiles 376
Pilot plant, for biological oxidation tests 145
Plastics, laminates with textiles and poly(vinyl chloride) foam, for leather substitutes .. 41
Pollution, prevention of, in leather industry, chemical industry in 145
Poly(vinyl chloride)
cellular, laminates with textiles and plastics, for leather substitutes 41
finishes, dye migration into, dyeing auxiliaries and fatliquoring and retanning effect on 377

Polymers, finely dispersed, properties of 375
Polyphosphates
in pretanning, chain length effect on shrinkage temperature and tanning penetration 197
hydrolysis of, for Liritan process, temperature and pH effects on 356
Polysilicic acid, tanning with aluminum salts and 343
Potassium oxalate, dyeing of leather with tannins and 343
Preservatives, phenolic, for leather, biodegradable 211
Pressing, of leather, water removal by 145
Preventol WB, phenolic leather preservative, biodegradable 211
Process optimization, of dyeing and finishing 380
Proteinase, concentrate, in unhairing 377
degradation by, of tanned hide powder 344
Proteins
adsorption of, on activated charcoal 378
deficiency of, lysosomal stability in relation to 346
in hide trimmings, transamidification of, peptides from 211
malnutrition of, collagen metabolism in aging in relation to 378
recovery of, from waste chrome leather 78
removal of, from tannery wastewater 277
Proteoglycans, removal of, from hides in beamhouse, opening-up in relation to 85
Proteolysis, in unhairing with *Lactobacillus plantarum* 374
Proxel GXL, bactericides, for hide curing 293
Pseudomonas aeruginosa, hyrolysis by, of chrome shavings 378

Quinone compounds, tanning materials from basic chromium sulfate and mercaptoacetic acid and 37

RABINOVITZ, ISIDOR, Obituary 341
Ray fish
skins, histology of 232
skins, tensile properties of 396
Reduction, of keratin with sodium thioglycolate for solubilization 331
Rheology, control of, for improved finish application 381
Rubber, leather substitutes from leather fibers and 37
nitrile, adhesives, resin-modified, for footwear and leather 373
Rumex hymenosepalus, roots, simultaneous extraction of starches and tannins from .. 389

Sarotherodon mosambicus, wastewater toxicity to 377
Sausage casings
collagen, bleaching of, with chlorine dioxide 62
extrudable collagen gels for 81
SCHUBERT, ADOLF, Obituary 313
Scudding, after liming, leather quality in relation to 375
Sheepskin
drying of, heat damage in 146
suede garment leather, dyeing and physical properties of, retanning effect on 379
woolskins, finishing of flesh side of 371

woolskins, shrunken grain leather from 342
Shoes, from fashionable upper leather, problems in manufacture of 375
Shrinkage temperature, polyphosphate chain length effect on 197
SIEGLER, MARCEL, Alsop Award to 274
Silicones
leather waterproofing by 210
waterproofing by, in fatliquoring 345
Sirolime, unhairing process 347
Skin
human, sun screens for, for indoor ultraviolet equipment 76
of ray fish (Myliobatis), histology of 232
rat, medical properties and thermal behavior of, protein malnutrition effect on ... 212
Sodium thioglycolate, reduction by, of keratin for solubilization 331
Soils, in wastewater treatment, review on 149
Solubilization, of keratin by reduction with sodium thioglycolate or oxidation with performic acid 331
Sound insulators, leather powder composites with phenolic or urea resins 283
Splitting
in lime, leather quality in relation to 375
of leather by Novosplit machine 148
Splitting machine
for hides, with adjustable calibrating roller 281
for leather, platform for 276
Sporting goods
cricketballs, leather for, manufacture of 379
rackets, collagen strings for, bleaching of, with chlorine dioxide 62
Staining, of fur microtome slices 146
Staking machine
for leather and furs 318
overload-security for 283
Starch, extraction of, from Canaigre roots, simultaneously with tannins 389
STOCKMAN, GEORGE, Biography 311
Streptomyces griseus, proteinases of, degradation by, of tanned hide powder 344
Streptomyces moderatus, proteinase concentrate from, in unhairing 377
Stretch, of soft upper leather 148
Stretching machine, Dynavac, for leather 321
Surface, measurement of, of leather 118
Surfactants
grip enhancement of leather coverings with antiperspirants and 284
oxidation of, in tannery wastewater 370
Symposium
on machines for leather processing 319
on rawstock 285
Synthetic tanning materials
aluminum and aluminum-chromium, high-exhaust, for retanning 212
biodegradability of 344
naphthalene-formaldehyde condensates, chromatography of 372
retanning with 376

tanning with aluminum salts and formaldehyde and, for upholstery leather 374
in white leather manufacture from wet-blue stock 103

Tannase, from *Penicillium chrysogenum*, molecular weight of 379
Tannic acid, decomposition of, by *Penicillium chrysogenum* 373
Tanning
with acrylic polymers 78
alum-formaldehyde, of cricketball leather 379
aluminum-formaldehyde-syntan, for upholstery and leather goods 374
with aluminum salts, glutaraldehyde and phenolic resins in 114
with aluminum salts and polysilicic acid 343
with aluminum salts, for wet-white hides 210
with ammonium titanyl sulfate 278
auxilary chemicals in, review on 146
differential scanning calorimetry of collagen denaturation in relation to 213
dry drumming in 146
innovations in, review on 380
odors from, in Naples area 146
pollution prevention in, chemical industry in relation to 145
pretreatment with polyphosphates, chain length effect on shrinkage temperature and tannin penetration 197
pretreatment of wet-white hides with aluminum salts 343
re-, with aluminum-chromium syntans 212
re-, dye migration into finishes in relation to 377
re-, of glazed kid leather with cutch 232
re-, with polyurethanes 148
re-, sheepskin suede garment leather dyeing and physical properties in relation to 379
re-, with syntans 376
re-, of upper leather with blends 232
waste liquors from, recycling of, calculation of limiting concentration of materials in 69
wastewater from, recycling of chemicals from, membranes in 118
of wet-blue stock with syntans for white leather 103
Tanning material analysis, identification of blended extracts by chromatography 232
Tanning materials
acrylonitrile-mica graft copolymers 346
aluminum-titanuim-zirconium 40
from basic chromium sulfate, quinone compounds, and mercaptoacetic acid 37
cashew testa liquors, for retanning upper leather chrome-phenolic resin reaction products 372
oil-in-water emulsions containing alum and borax 40
Tannins
in bark and wood of *Cleistanthus Collinus* (Karada) 212
dyeing of leather with metal salts and 343
extraction of, from Canaigre roots, simultaneously with starches 389
in *Loranthus longiflorus desr* bark 345
oxidation of, in tannery wastewater 370

polymers with aldehydes and amino compounds, for flocculants 280
TETREAULT, HERBERT A., Fred O'Flaherty Service Award to 273
Textiles
laminates with plastics and poly (vinyl chloride) foam, for leather substitutes 41
leather substitutes from leather fibers and 83
leather substitutes from porous polyurethanes and, moisture-permeable 42
microencapsulated liquid crystal-coated 79
Thermodynamic activation, of intramuscular collagen in fish 342
Thermofix, pyrolytic sludge management process 322
Titanium salts, tanning materials from aluminum and zirconium salts and 40
Toxicity
of chromium to chick embryos, alkaline phosphatase activity in bones in relation to 212
of chromium to embryonic bones, X-ray diffraction study of 370
of tannery wastewater to fish 377
Transamidification, of proteins in hide trimmings, peptides from 211
Trypsination, of hides in determination of bacterial degradation 380

Unhairing
bating in relation to 344
composition for 279
with *Lactobacillus plantarum*, proteolysis in 374
with lactic acid bacteria 374
with little opening of hide structure 76
machine for, scraper block for 280
proteinase concentrate in 377
Sirolime process for 347
wastewater from, amine determination in 344
Upholstery
automobile, pigskin leather for 376
leather for, aluminum-formaldehyde-syntan tanning process for 374
Urea resins, composites with leather powder for sound insulators 283
Urethane polymers
aqueous dispersions of, as non-polluting coatings 346
finishes, dye migration into, dyeing auxiliaries and fatliquoring and retanning effect on 377
finishes, photodegradation of 345
porous, leather substitutes from textiles and, moisture-permeable 42
in retanning 148
water-based, for finishing 191

Vitamin E, sun screens containing, for human skin 76

WALKER, M. P., Biography 111
Wastes
chrome leather, recovery of chrome and proteins from 78
chrome shavings, hydrolysis of, by *Pseudomonas aeruginosa* 378
from hides, detergent manufacture from gelatins from 118

hide trimmings, transamidification of proteins in, peptides from 211
nitrogenous, water pollution by 210
pyrolytic management process for 322
Wastewater
toxicity of tannery effluent, to fish 377
unhairing-liming, amine determination in 344
from wet-blue process, process variation effect on 19
Wastewater treatment
ammonia removal, from deliming effluent by stripping-reabsorption 125
anaerobic digestion, methane from 379
chrome recovery, at Thru-Blu 305
chromium salt recovery from 276
corrosion in 370
critical survey of 371
odors from, in Naples area 146
oxidation of surfactants and tannins in 370
protein removal 277
protein removal, by adsorption on activated charcoal 378
recycling of chemicals, membranes in 118
recycling of chrome liquors 118
recycling of tanning liquors, calculation of limiting concentration of materials in 69
sludge, anaerobic degradation of 115
sludge, biogas from, energy recovery from 145
sludge, odors from 145
sludge, organochlorinated biofungicide determination in, by gas chromatography. 343
sludge, pyrolytic management process for 322
by soils, review on 149
Water pollution, by nitrogenous wastes 210
Waterproofing
with acrylic polymers and hydrocarbons and waxes 82
with fluorochemical finishes 84
of leather, with aliphatic compounds and fluorinated hydrocarbons and silicones .. 210
of leather with organic nitrogen compounds 277
of leather, by silicones in fatliquoring 345
Waxes, waterproofing with acrylic polymers and hydrocarbons and, ... 82
Wearing apparel, sheepskin suede leather for, dyeing and physical properties of, retanning effect on 379
White spots
on hides, quality survey on 286
on leather, psoroptic mange in relation to 296
Writing slates, from waste chrome split leather 211

X-ray diffraction
by embryonic bones, chromium toxicity in relation to 370
by microcrystalline collagen 342

Yellowing, of white leather 344

Zinc oxinate, hide preservation with 211
Zirconium salts, tanning materials from aluminum and titanium salts and 40
Zirconium sulfate, dyeing of leather with tannins and 343
